## *A brief update from Herrnhut*

This autumn we will finally begin work on our main sanctuary! We have received a large earmarked donation and are now able to look at contracting the necessary skilled workers for the renovation.

After the summer holidays we will be updating you with more information. However, you can already be thinking about if you would be able to send a building team to support us in this project. Please contact us with what dates you might be able to come!

Please continue to pray for us and with us. In the autumn we will be adding a few new staff members to our team and will also decide what events, programs and outreaches will be happening in the next year.

*One day our sanctuary  
may look like this!*
